PROFILE

Software Engineer driven to utilise my skills and opportunities for professional growth while contributing meaningfully to organisational success. Not just a coder — a storyteller crafting compelling digital narratives through responsive, user-focused interfaces. Eager to bring creativity, precision, and a relentless pursuit of excellence to a dynamic team.

EMPLOYMENT HISTORY

Jr. Software Engineer – Xzoona Digital Technology, Chattagram Jan – Jun 2025

- Built responsive front-end interfaces under the Soft-X Team, improving UX across client-facing products.
- Collaborated in an agile environment applying clean code practices and Git-based workflows.

Web Developer Intern – Bharat Intern (Remote) Jan – Mar 2024

- Developed and maintained responsive web interfaces, enhancing functionality and user experience.
- Strengthened front-end skills through mentored contributions to live projects.
